To be taken into account, the single participation form, either for the vote or for the appointment or revocation of proxies, expressed by post, must be received (either directly for holders of registered shares, or *via* the financial intermediary for holders of bearer shares) by Société Générale Securities Services at least three days before the date of the Meeting, *i.e.* **Friday, May 12, 2023** at the latest.

To appoint a new proxy, shareholders should request a new form marked "Change of proxy". This new form must be received by Société Générale Securities Services no later than three days before the Meeting, *i.e.* **Friday, May 12, 2023**.

To vote or grant proxy voting powers online

Shareholders may vote or grant a proxy electronically, online using the secure VOTACCESS platform which will be open from **Monday, April 24, 2023 at 9:00 a.m. to Tuesday, May 16, 2023 at 3:00 p.m. (Paris time)**. This platform enables shareholders to electronically submit their voting instructions or designate or revoke a proxy, simply and quickly, prior to the Annual Shareholders' Meeting, in line with the terms and conditions outlined below. **To avoid any potential saturation, shareholders are requested to not wait until the last minute before connecting to the platform.**

Once on the homepage of the website, holders of registered shares will follow the instructions on the screen to access the VOTACCESS platform and vote, appoint or revoke a proxy.

For holders of bearer shares: Only holders of bearer shares with account holder members of the VOTACCESS system who offer this service for this Shareholders' Meeting may have access. The account holder for the holders of bearer shares who is not a member of VOTACCESS or subjects access to the secure platform to usage conditions shall indicate to the shareholder how to proceed. 2022 business review

After two years severely impacted by the health crisis, the fiscal year 2022 posted a solid and sustainable rebound in Group's activity. The performance of hotels during the second half surpasses pre-crisis levels. Only Asia, impacted by the strict "zero-Covid" policy in China until year end, was still significantly below 2019 activity levels.

Worldwide, our recovery was driven primarily by domestic guests, with levels exceeding those of 2019. Whereas international travelers failed to return to 2019 levels, their number is once again growing sharply. As observed in recent quarters, the recovery has been accompanied by a strong increase in prices, fueled by demand and accentuated by inflation.

Group RevPAR was up +2% over 2022 compared with 2019. This increase reflects the strong rebound in activity after two years of health crisis.

In 2022, the Group recorded a revenue of €4,224 million, up 80% like-for-like (LFL) versus fiscal year 2021. By activity, this growth breaks down into an increase of 89% for HotelServices and of 63% for Hotel Assets & Other. For comparison purposes with RevPAR (data compared with fiscal year 2019), revenue was up 4% LFL compared with fiscal year 2019. Scope effects (acquisitions, disposals and reopenings) contributed positively for €72 million linked mainly to the takeover of Paris Society and the reopening of the Pullman Montparnasse. The foreign exchange effect had a positive impact of €189 million, mainly linked to the US dollar (11%).

Current EBITDA in 2022 came to €675 million compared with €22 million in 2021. For 2022, operating profit was positive at €543 million. It in particular included a positive contribution from the share of income in associates for €33 million and non-current income and expenses amounting to €63 million. The net financial expense stood at €84 million. Net profit, Group share stood at €402 million.

During 2022, Accor opened 299 hotels, representing 43,000 rooms, i.e. net growth in the network of 3.2% over the 12-month period. At end-December 2022, the Group had a hotel portfolio of 802,269 rooms (5,445 hotels) and a pipeline of 216,000 rooms (1,247 hotels).

Group net financial debt at December 31, 2022 came to €1,658 million, versus €1,844 million at December 31, 2021. At December 31, 2022, the Group's average cost of debt came to 2.1% with an average maturity of 3.6 years and no major maturities before 2026. At end-December 2022, combined with the undrawn credit facility of €1.2 billion, Accor had a liquidity position of €2.8 billion.

Consolidated results

Revenue

Group revenue totaled €4,224 million, up 92.0% on a reported basis and (80.0% like-for-like) *versus* end of December 2021.

Changes over the year reflect the following items:

- changes in the scope of consolidation (acquisitions, disposals and reopenings) contributed a positive €72 million largely due to the takeover of Paris Society and the reopening of the Pullman Montparnasse;
- currency effects had a positive impact of €189 million, mainly due to the US dollar (11%).

Current EBITDA

Current EBITDA came to €675 million at December 31, 2022, compared with €22 million at December 31, 2021.

HotelServices EBITDA was positive at €661 million for 2022. The figure stemmed from positive EBITDA for Management & Franchise (M&F) and a negative contribution from Services

to Owners related to marketing expenditure ahead of the rebound in business activity in first-half 2022. Services to Owners EBITDA came out at a positive €14 million in the second half of the year. Rebilling of hotel costs (with revenue at €1,273 million) structurally remained at breakeven at the EBITDA level.

The Management & Franchise business of HotelServices reported EBITDA of €737 million, significantly higher than in 2021 (€275 million) and down 5% like-for-like compared with FY 2019.

Hotel Assets & Other EBITDA amounted to €137 million in 2022, compared with €48 million in 2021. This segment

was mainly driven by Asia-Pacific where business has recovered strongly since the end of 2021. New Businesses, included in this segment since early 2021, reported positive EBITDA in full-year 2022.

The Holding & Intercos line includes Group head office costs.

Current EBIT

Consolidated EBIT came to €447 million at December 31, 2022, compared with a negative €228 million at December 31, 2021.

Personnel expenses amounted to €2,097 million compared with €1,300 million in 2021. The increase in personnel expenses in fiscal year 2022 can be attributed to the combined effect of the business recovery, the reopening of hotels, and the termination of government aid. The personnel costs incurred on behalf of hotel owners as part of hotel management (and fully recharged to them) increased mainly in North America, reflecting the strong recovery in business in the region.

Rental expense, which is the variable portion of rents for hotel assets operated under leases, contractually indexed

to their performance, was up over the year. It totaled €91 million in 2022 compared with €30 million in 2021.

Other operating expenses, mainly made up of marketing costs, advertising and promotional spending, distribution and IT costs, increased in line with the recovery in business, even though the Group is continuing its efforts to maintain control of costs. This item also includes costs incurred and fully rebilled within the framework of the management contract for hotel residences for the Soccer World Cup in Qatar in November and December 2022.

Depreciation, amortization and provisions for the year amounted to €228 million compared with €249 million at December 31, 2021.

Operating profit

Operating profit was up strongly to €543 million after €53 million in 2021.

The share of net profit of equity-accounted investments was positive at €33 million for 2022, (compared with -€273 million in 2021) reflecting the substantial improvement in AccorInvest business in its main market, Europe.

At December 31, 2022, impairment tests led the Group to book a net impairment writeback for an amount of €61 million.

Restructuring expenses totaled €38 million.

Gains or losses on disposals amounted to €43 million compared with €646 million at December 31, 2021. Over the comparative period, income of €649 million was reported as part of the partial sale of H World Group Limited shares in February 2021.

Net profit (loss), Group share

The net financial expense in 2022 amounted to €84 million, *versus* €109 million in 2021.

In 2022, the Group bore a tax charge of €76 million.

Net profit from discontinued operations amounted to €43 million and, as in 2021, reflects mainly a partial writeback from provisions for risks linked to guarantees issued as part of the AccorInvest disposal program.

Net profit, Group share was accordingly €402 million, compared with €85 million in 2021.

Based on a weighted average number of shares outstanding of 262,531,151, earnings per share was €1.40 in 2022, compared with €0.19 in 2021.

Recurring free cash flow

Group recurring free cash flow returned to positive territory in 2022 at €373 million compared with cash burn of €246 million in 2021.

Recurring expenditure, which includes “key money” paid by HotelServices for its development as well as digital and IT investments, amounted to €159 million in 2022, ending the year at the lower end of the initially indicated range of €150-200 million. Recurring investments in 2023 are expected to be higher than €200 million.

Change in the working capital requirement remained close to breakeven. As in 2021, payment of fees was in line with business levels during 2022 as well as the collection of certain fees for which payment deadline extensions were granted to certain hotel owners.

Debt and liquidity profile

Group net financial debt at December 31, 2022 came to €1,658 million, *versus* €1,844 million at December 31, 2021.

This decrease resulted primarily from:

- the generation of cash from the business recovery reviewed above;
- the sale of a 10.8% stake in Ennismore in November 2022 for €185 million, announced on June 21, 2022;
- the sale of shares in H World Group Limited (Huazhu) for €154 million.

These three items offset the increase in debt linked to the consolidation of Paris Society following the acquisition of a controlling interest in November 2022.

At December 31, 2022, the Group's average cost of debt came to 2.1% with an average maturity of 3.6 years, with no major maturities before 2026.

At end-December 2022, combined with the undrawn credit facility of €1.2 billion, Accor had a liquidity position of €2.8 billion.

Dividend and payout ratio

Based on the 2022 results, the dividend distribution policy implemented since 2019 (payout of 50% of recurring free cash flow), and as recommended by the Board of Directors, Accor will submit to the approval of the Annual Shareholders' Meeting of May 17, 2023 the payment of an ordinary dividend of €0.71 per share.

In addition, based on recent disposals (*i.e.* a 10.8% stake in Ennismore and shares in H World Group Limited), the Board of Directors has decided to propose the payment of an exceptional dividend of €0.34 per share.

The combination of ordinary and exceptional dividends results in a payment of €1.05 per share, in line with the last dividend paid out in 2019.

HotelServices

HotelServices, which corresponds to Accor's business as a hotel manager and franchisor, includes the following activities:

- **Management & Franchise:** the hotel management and franchise business, based on the collection of management and franchise contract fee from hotel owners. It also includes commissions received on centralized purchases.
- **Franchise agreements:** franchised hotels are operated by their owners under an Accor brand. The Group provides access to various services, mainly the right to use its brands, access to its distribution system and additional services, such as centralized purchases, and access to the Accor Academy (training for hotel staff). Accor revenue corresponds to the fees invoiced to hotel owners (trademark fee, distribution and marketing fees and, where applicable, the billing of additional services);
- **Management contracts:** in this business model, the hotels are managed by Accor on behalf of hotel owners.

In this respect, the Group invoices management fees based on the hotel's revenue and, in some cases, incentive fees generally based on the hotel's profitability.

The Management & Franchise operations are divided into the following five regions:

- Southern Europe;
- Northern Europe;
- Asia-Pacific, which includes the South-East Asia, "Greater China" and Pacific hubs (ASPAC);
- Americas includes the Central and North America, Caribbean and South America hubs;
- India, Middle East, Africa and Turkey (IMEAT).
- **Services to Owners:** this comprises the various services provided by the Sales, Marketing, Distribution and Loyalty Division (sales, marketing and distribution activities, loyalty program as well as shared services and re-billed costs incurred on behalf of hotel owners).

Revenue

HotelServices reported a business volume of €23 billion in 2022 *versus* €12 billion in fiscal year 2021, and revenue of €3,194 million, up 89% like-for-like. This increase reflects the solid recovery in business over the year.

Management & Franchise revenue by region

Management & Franchise (M&F) revenue stood at €1,052 million, up 93% like-for-like *versus* fiscal year 2021 (down 1% like-for-like *versus* FY 19), with regional performances correlated to health crisis developments in the countries considered.

Groupe RevPAR rose 15% year on year overall in fourth-quarter 2022 compared to the same period in 2019, improving on the excellent performance in the third quarter (+14% *vs.* 2019). Group RevPAR for full-year 2022 was 2% higher than in 2019.

Southern Europe, driven by France, reported a 12% increase in RevPAR in Q4 2022 compared with Q4 2019. Business performance increased quarter after quarter, with RevPAR for full-year 2022 exceeding that of 2019 by 3%.

- In France, RevPAR rose 13% in Q4 2022 compared with Q4 2019. The performance was driven mainly by Paris, which benefited from the return of international leisure guests.
- In Spain, RevPAR was up 5% in Q4 2022 *versus* Q4 2019.

Northern Europe posted a 5% increase in RevPAR in Q4 2022 *versus* Q4 2019, for a slight slowdown relative to the third quarter, in particular owing to Germany. Northern Europe RevPAR for full-year 2022 was 6% lower than in 2019.

- In Germany, the slowdown in business activity at the end of the year reflected the seasonality of trade fairs and conventions, with fewer events and a dip in attendance in the fourth quarter.
- RevPAR in the United Kingdom remained solid, increasing on the previous quarter. London and the rest of the country achieved comparable performances despite transport-impacting strikes over the period.

Asia-Pacific enjoyed a sequential improvement in RevPAR (+3 percentage points between the third and fourth quarters), to stand at -6% in Q4 2022 compared with Q4 2019. For full-year 2022, RevPAR for the region was 18% lower than in 2019.

- Business activity for the Pacific region was stronger than before the crisis, with a 13% increase in RevPAR in Q4 2022 *versus* Q4 2019, still largely driven by prices.
- RevPAR in China decreased relative to the third quarter, falling 39% in Q4 2022 compared with Q4 2019 owing to the strict application of a zero-Covid policy to early December 2022. Business has since improved despite the high number of Covid-19 cases in the country.
- South-East Asia posted a substantial improvement in Q4 2022 (up 17% quarter on quarter), with RevPAR standing 4% lower than in Q4 2019. The recovery was underpinned in particular by Singapore, leisure guests in Thailand, and the reopening of Japan in October.

In the India, Africa, Middle East & Turkey region, business benefited considerably from the Soccer World Cup in Qatar in November and December, with RevPAR a full 73% higher in Q4 2022 than in Q4 2019. The event had a knock-on effect across the Arabian Peninsula. Saudi Arabia also benefited from robust business activity linked to pilgrimages. Regional RevPAR for full-year 2022 was 47% higher than in fiscal year 2019.

In the Americas, the improvement in RevPAR was also noteworthy (+6 percentage points between the third and fourth quarters), increasing 18% in Q4 2022 compared with Q4 2019. RevPAR for the Americas region in full-year 2022 was 5% higher than in 2019.

Current EBITDA

HotelServices EBITDA was positive at €661 million for 2022.

The figure stemmed from positive EBITDA for the Management & Franchise (M&F) segment and a negative contribution from Services to Owners related to marketing expenditure ahead of the rebound in business activity in first-half 2022. The Management & Franchise business reported current EBITDA of €737 million, significantly higher than in 2021 (€275 million) and down 5% like-for-like compared with FY 2019.

Services to Owners EBITDA came out at a positive €14 million in the second half of the year. Rebilling of hotel costs (with revenue at €1,273 million) structurally remains at breakeven at the EBITDA level.

Hotel Assets & Others

Hotel Assets & Other EBITDA came to €1,084 million in 2022 *versus* €633 million in 2021.

This segment, which is closely linked to business in Australia, in particular benefited from a pick-up in leisure tourism demand on the northeastern coast of the country where most of the Group's Strata activities are located.

- RevPAR for the North/Central America and Caribbean region was 8% higher in Q4 2022 than in Q4 2019, still strongly fueled by prices.
- Business also remained robust in South America (with Q4 2022 RevPAR exceeding that of Q4 2019 by 42%), the sustained rise in prices having been underpinned by inflation over the last three years.

Services to Owners revenue totaled €2,143 million in 2022, up 8% compared with fiscal year 2019. The total includes revenue from the Sales, Marketing, Distribution and Loyalty Division and shared services, as well as repayments of payroll costs of the hotels. In 2022, repayments of payroll costs also included the re invoicing of the costs incurred by Accor as part of the welcome services provided to supporters at the Soccer World Cup in Qatar.

- The Management & Franchise EBITDA margin was 70.1% *versus* 53.1% in 2021.
- Services to Owners EBITDA margin was negative at -3.5% compared with -17.1% in 2021 owing to marketing spending carried out upstream of the rebound in business in first-half 2022.
- In 2022, Accor opened 299 hotels (organic growth), corresponding to 43,000 rooms, for net growth in the network of 3.2% over the 12-month period. At the end of December 2022, the Group had a hotel portfolio of 802,269 rooms (5,445 hotels) and a pipeline of 216,000 rooms (1,247 hotels).

At end-December 2022, this segment, which includes owned and leased hotels, represented 114 hotels and 22,436 rooms.

Hotel Assets & Other EBITDA came to €137 million in 2022 *versus* €48 million in 2021. It was mainly driven by Asia-Pacific where business has recovered strongly since the end of 2021. New Businesses, which benefited from the recovery of tourism, posted positive EBITDA in 2022.

At the same time, the Group has focused its organic development exclusively on hotel management and franchising.

The Group's development has focused on the most profitable segments to increase the weighting of high-value markets in its brand portfolio. Between 2015 and 2022, the weight of the luxury and upscale segments within the Accor network increased by 169%, *versus* growth of 57% in the network as a whole.

At December 31, 2022, the luxury and upscale segments accounted for 27% of the Accor network, up 1 point relative to 2019. Accor SA report

Revenue included hotel management fees of Accor SA, fees from management leases and income from services. It amounted to €1,174 million at end-December 2022 compared with €630 million at end-December 2021 for all of these activities. This 86.35% increase, i.e. €544 million, can mainly be attributed to the increase in management and franchise fees, reflecting the very strong recovery in business over the year.

The operating loss at December 31, 2022 amounted to €29 million, compared with a €269 million loss at end-December 2021, representing a decrease in the loss of €240 million.

Own work capitalized, reversals of depreciation, amortization and provisions and expense transfers, and other income amounted to €70 million, compared with €108 million at December 31, 2021. The €38 million decline can notably be attributed to:

- the €18 million increase in the value of own work capitalized, stemming from the recovery in IT projects in 2022;
- the reversal of provisions for amortization and expense transfers for an amount of €57 million for which increases of €31 million of charges to be allocated for bond issues and €13 million related to ALL points offset by a reversal of €9 million from a pension provision.

Operating expenses stood at €1,273 million as of December 31, 2022, compared with €1,006 million at December 31, 2021. This €267 million increase can mainly be attributed to:

- an increase in other purchase and external expenses of €202 million, with notably:
 - for the external expenses item, an increase in the cost of the internal support contribution for €50 million, an increase of €46 million in management costs and an increase in internal expenses and IT fees for €32 million,
 - for the advertising expenses item, an increase in the cost of refunding loyalty points used by guests in the loyalty program for €58 million,
 - for the discounts and rebates item, an increase in procurement transfers for €23 million,
 - an increase in the cost of purchasing IT equipment in SAAS mode for €12 million euros,
 - a decline in banking commissions for €30 million,
- a decline in payroll and social security contributions of €3 million;
- operating provisions increased by €21 million. This trend resulted notably from the increase of €16 million in provisions for contingencies and charges, of which €15 million relative to loyalty points to refund customers, a €7 million increase in depreciation and

amortization and a €3 million increase in allocations to provisions for impairment of receivables, partially offset by a €4 million decline in depreciation of management contracts;

- an increase in other operating expenses of €43 million mainly due to the increase in brand fees billed by Soluxury of €41 million.

Net financial income came to €57 million at end-December 2022, compared with an expense of €49 million at end-December 2021, i.e. a €106 million change mainly reflecting the increase in dividend payments from subsidiaries, increased impairment and provisions of investments in subsidiaries and the decline in forex income.

At end-December 2022, dividend income amounted to €257 million compared with €71 million at end-December 2021. This increase can be mainly explained by the payment of one dividend by Accor Hotel Belgium for €166 million.

Total increases and reversals of financial provisions represented a net expense of €79 million at end-2022, compared with a net expense of €31 million at end-2021. They mainly related to the impairment of investments in subsidiaries.

Recurring income before tax of €27 million was recorded at end-December 2022, compared with an expense of €318 million at end-December 2021.

Net non-recurring income amounted to €122 million in 2022, versus a net non-recurring expense of €238 million at end-December 2021. This result can be explained notably by:

- the impact of internal legal restructuring and disposals linked to the formation of the Lifestyle (Ennismore) platform, which, for AccorSA, led to net income of €138 million stemming mainly from the sale of shares in the Ennismore Lifestyle Group as well as fees related to these transactions;
- the booking of an expense as part of the liability guarantee in the amount of €7 million relative to the tax audit of a subsidiary sold to AccorInvest, offset by a reversal of an expense provision for €21 million;
- the booking of a net restructuring charge of €13 million linked to the RESET plan.

At end-December 2022, income tax broke down into an income tax benefit of €14 million stemming from tax consolidation, compared with group relief of €14 million and an income tax benefit of €1.4 million at December 31, 2021.

The Company ended 2022 with profit of €164 million, versus a loss of €540 million at end-December 2021.

In application of Article L. 22-10-34, II of the French Commercial Code, shareholders are invited to approve, in the **ninth resolution**, the fixed, variable and exceptional components of total compensation, and all benefits in kind paid or granted for the fiscal year ended December 31, 2022 to Mr. Sébastien Bazin as presented in the corporate governance report in section 4 of the Company's Universal Registration Document for fiscal year 2022, a summary presentation of which is included in the appendices of this report.

Approval of the related-party Agreements – Statutory Auditors' special report on related-party agreements

The **twelfth to fifteen resolutions** invite the Shareholders' Meeting to approve the related-party agreement authorized and concluded in fiscal year 2022.

The **twelfth resolution** concerns the conclusion of a sponsorship agreement with Fondation de France, acting in the name and on the behalf of Fondation G&G Péligon. This agreement was authorized by the Board of Directors at its meeting of February 23, 2022 with a view to providing financial support, alongside the Accor franchised owners, for the extension work on Institut Paul Bocuse, a flagship of hotel and catering education in France. Under this agreement, the maximum investment amount for the Company is €3 million over a period of no more than four years, it being stipulated that the payments to be made by the Company shall be equal to the amount paid by the franchised owners of the Accor Group.

Through this agreement, the Company is seeking to boost its visibility by contributing to the reputation and development of Institut Paul Bocuse, which serves to train students in hospitality and catering in the wake of a health crisis having resulted in a shortage of talents in these sectors. The Company's support also contributes to promoting the know-how, cultural heritage and the French art of entertaining. As a preferred partner, Accor benefits from communication initiatives; in particular, the institute's auditorium will be renamed Accor.

The **thirteenth resolution** concerns the renewal of the agreement signed on April 28, 2021 with Accor Acquisition Company on the provision of premises for Accor Acquisition Company, a special purpose acquisition company (SPAC), of which Accor is the sponsor. Under the agreement, Accor Acquisition Company benefits from a business address, a few offices and meeting rooms, and facilities provided by Accor free of charge.

The **fourteenth resolution** concerns the signing of a new partnership agreement with Paris Saint-Germain Football (an indirect subsidiary of Qatar Investment Authority),

authorized by the Board of Directors on June 19, 2022. Under the terms of the partnership agreement, the ALL brand figures on the training jerseys of the players of the Paris Saint-Germain soccer club and the Company is able to provide unique and privileged experiences to members of the ALL loyalty program for four seasons, through 2026.

The Company's goal is to lend global visibility to its ALL brand by taking advantage of the media coverage of the Paris Saint-Germain club and its players and provide unique and exceptional experiences to members of its loyalty program.

The **fifteenth resolution** invites the Shareholders' Meeting to approve the conclusion of a contract on the subscription of shares of Rotana Music Holding Limited, a music production company headquartered in Abu Dhabi in the United Arab Emirates, and a shareholders' agreement with the other shareholders of the company, the main shareholder of which is a subsidiary of Kingdom Holding (the Company's fourth shareholder and represented on the Board of Directors) authorized by the Board Meeting of February 23, 2022.

This holding, which confers approximately 3% of the capital of Rotana Music to the Company, enables Accor to strengthen the visibility of its ALL loyalty program in the Middle East by taking advantage of the media coverage of Rotana Music and its strong audience rating with customers and partners in the Middle East, a major development region for the Group.

With these resolutions, you are also invited to note the conclusions of the Special Report of the Statutory Auditors on related-party agreements provided for in Articles L. 225-38 et seq. of the French Commercial Code, reproduced in section 4.13 of the Company's 2022 Universal Registration Document. This report also presents the related-party agreements concluded in prior years the execution of which continued during the year ended December 31, 2022.

Authorization to trade in the Company's shares

The **sixteenth resolution** renews, for eighteen months, the authorization for the Board of Directors to trade in Accor shares, under the conditions and for the purposes provided for by the relevant regulations and the General Regulation of the French securities regulator (AMF).

Thanks to this authorization, the maximum number of Accor shares that can be acquired by the Company is set at 10% of the share capital (it being recalled that the calculation of this amount at any time shall, where appropriate, be adjusted for related transactions that may impact it after the date of the Annual Shareholder's Meeting), the maximum buyback price being set at €70 per share. As a result, the maximum amount could, as required, total €1.84 billion.

The share buyback program can only be used for the purposes defined by French law and declared in this resolution. In particular, the Company may use it to buy back shares to be cancelled, carry out external growth transactions (within the limit of 5% of the share capital), make a market in Company shares or for free share plans.

The Board of Directors may not use this authorization in the event of a public offer for Company shares and any other active share buyback program must be suspended until the closing of the offer, except for the execution of transactions to meet settlement requirements before the launch of such a public offer.

Notwithstanding the liquidity contract concluded with Rothschild Martin Maurel on March 24, 2020, the Company did not make any share transactions in 2022.

At December 31, 2022, Accor did not hold any treasury shares.

Furthermore, the **seventeenth resolution** renews the authorization for the Board of Directors to cancel, within the limit of 10% of the share capital over a twenty-four-month period (it being specified that the calculation of this amount at any time shall, where appropriate, be applied for related transactions that may have an impact following the date of the Annual Shareholder's Meeting), all or part of the shares acquired pursuant to the tenth resolution and to reduce the Company's share capital accordingly. This authorization is valid for a twenty-four-months period from the date of the Annual Shareholders' Meeting.

Financial authorizations relative to Company share capital

The **eighteenth to twenty-third resolutions** invite the shareholders to renew the authorizations granted to the Board of Directors to increase the Company's share capital.

These resolutions grant the Board of Directors the authorization to decide, if the case were to arise, to carry out market trades enabling, in particular, the rapid and flexible release of the financial resources necessary to implement Group strategy.

They authorize the issuance of shares and securities giving immediate access to the Company's share capital or capital of companies in which it owns directly or indirectly more than half of the share capital and which fall within the competence of the shareholder's General Meeting, both in France or internationally, and with or without pre-emptive subscription rights for existing shareholders, in line with opportunities offered by financial markets in the interests of the Company and its shareholders.

The capital increases that could be issued are subject to ceilings which can vary depending on the existence or absence of pre-emptive subscription rights for existing shareholders (see ceilings table by resolution below).

In any event, and pursuant to the **twenty-fourth resolution**, the Blanket ceiling on the overall amount of the capital increases may not exceed 50% of the share capital (it being specified that the calculation of this amount at any time shall, where appropriate, be adjusted for related transactions that may have an impact following the date of the Annual Shareholders' Meeting), for the capital

increases issued pursuant to the authorizations granted by the seventeenth to twenty-second resolutions (i.e. for information purposes approximately €394 million at the date of this report).

Furthermore, a sub-ceiling of 10% of the share capital is applied when a shareholder's pre-emptive subscription rights are revoked, i.e. as part of capital increases issued pursuant to authorizations granted by the nineteenth to twenty-second resolutions (i.e. for information purposes approximately €78 million at the date of this report).

It is specified that these ceilings do not apply to the issuance of securities giving rise to the granting of other debt securities or existing capital securities, which fall under the exclusive scope of the Board of Directors pursuant to Article L. 228-92 of the French Commercial Code.

The Board of Directors may not use this authorization during a public offer or share exchange on the Company's shares.

This authorization is valid for a twenty-six-month period from the date of the Annual Shareholders' Meeting.

Comprehensive information on the amounts and conditions of implementation will be made available to shareholders, in the form of reports from the Board of Directors and the Statutory Auditors.

The details of the use of previous authorizations is provided in section "4.11 Authorizations to operate on the Company share capital" in the Company's 2022 Universal Registration Document.

Capital increase reserved for employees

The **twenty-fifth resolution** invites the shareholders to approve the authorization for the Board of Directors to issue ordinary shares and/or securities giving access to the share capital to the benefit of members of an Accor Group Corporate Savings Plan (*Plan d'Épargne Entreprise*) without pre-emptive subscription rights.

The total number of shares and securities giving access to the share capital likely to be issued pursuant to this resolution is capped at 2% of the share capital on the date of the decision of the Board of Directors to carry out the capital increase.

The issue price for the shares shall be determined in accordance with the regulations in force.

No employee share plan was implemented during the past fiscal year.

The purpose of the **twenty-sixth resolution** is to authorize the Board of Directors to increase the share capital, without pre-emptive subscription rights for existing shareholders, to the benefit of categories of Accor Group employees, solely in cases where an employee share ownership offer has been implemented using the authorization granted in the twenty-fifth resolution.

In some countries, due to legal, tax or practical problems or uncertainties, employee share ownership offers can only be implemented using alternatives to those offered to the employees of the French companies of the Accor Group who are members of an employee share ownership plan.

This resolution would allow employees who are unable to join an Accor Group employee share ownership plan under local legislation to benefit from share plans. The price of the new securities would be determined by the Board of Directors, based on the average share price quoted over the 20 trading days immediately preceding the Board's decision setting the opening date of the subscription period for the capital increase performed pursuant to the twenty-fifth resolution, less any discount decided.

This authorization is valid for 18 months as from the Shareholders' Meeting

Share warrants to be issued freely to shareholders in the event of a public offer on the shares of the company

With the **twenty-seventh resolution**, shareholders are invited to authorize the Company to issue, in the event of a public offer on its shares, free share warrants to shareholders. The shares warrants would be exercisable for shares representing up to 25% of the Company's share capital.

The objective of this resolution is not to safeguard against any public tender offer. With this resolution, the Board of Directors is seeking to provide itself with the means to obtaining, where it considers the offered price per share insufficient, an increase in this price of a maximum 25%.

During a public tender offer, this authorization may be implemented by the Board of Directors solely on the recommendation of an *ad hoc* committee of the Board chaired by the Vice-Chairman and Senior Independent Director and comprising three independent Directors. This *ad hoc* committee will rule based on the advice of its chosen financial advisor.

Share warrants issued under the authorization would be canceled in the event of the failure of the offer or any competing offer.

The authorization is valid for a period extending to the end of the offer period for any public offer on the Company's shares and filed within fourteen months of the date of the current Annual Shareholders' Meeting.

Powers to carry out legal formalities

The **twenty-eighth resolution** authorizes bearers of an original, extract or copy of the minutes of the Shareholders' Meeting to carry out any and all legal formalities.

Annual variable compensation	€1,559,129	<p>In accordance with the 2022 compensation policy approved by the Annual Shareholders' Meeting of May 20, 2022, Mr. Sébastien Bazin's variable compensation could represent between 0% and 150% of an annual reference amount of €1,250 000, i.e. the equivalent of between 0% and 197% of his annual fixed compensation, depending on the achievement rate for the performance objectives set by the Board of Directors presented below:</p> <ul style="list-style-type: none"> • quantitative objectives (accounting for 80% of the total): <ul style="list-style-type: none"> • consolidated EBITDA in line with the 2022 budget (25% weighting), • free cash flow (excluding disposals and acquisitions) after change in operating working capital in line with the 2022 budget (10% weighting), • RESET savings in line with the 2022 budget (15% weighting), • organic growth in the number of rooms (net of transfers to another brand) in line with the 2022 budget (15% weighting), • environmental, social and governance (ESG) criteria (15% weighting): <ul style="list-style-type: none"> • percentage of managed and franchised hotels having eliminated single-use plastic from the guest experience (except disposable water bottles) at December 31, 2022 (5% weighting), • percentage of women on Management Committees worldwide at December 31, 2022 (5% weighting), • percentage of managed and franchised hotels having implemented a tool for measuring carbon emissions at end-2022 (5% weighting); • qualitative objectives (accounting for 20% of the total): <ul style="list-style-type: none"> • agility and operational adaptation of the business model and talent development (20% weighting). <p>Each quantitative objective, depending on the achievement rate, triggered the payment of between 0% and 160% of the share of variable compensation it represented, and each qualitative objective between 0% and 120%.</p> <p>Following an assessment of the degree to which Mr. Sébastien Bazin's objectives had been achieved, at its meeting on February 22, 2023 the Board set his variable compensation for fiscal 2022 at €1,559,129, breaking down as:</p> <ul style="list-style-type: none"> • €1,271,629 euros for quantitative objectives, which, overall, were 127.2% reached. <p>The quantitative objectives relating to the budget or to the internal ambition (which themselves are not made public) are confidential and it is therefore not possible to disclose the achievement rates. However, it is noted that the objectives relating to EBITDA and free cash flow objectives (excluding disposals and acquisitions) after the change in operating working capital were exceeded, allowing a maximum payment rate of 160% for these criteria. The RESET savings criterion was achieved and the payment rate for this criterion was 100%. The ESG criteria were also met or exceeded, with an average achievement rate of 107.6%, leading to an average payment rate of 114.7%. In contrast, the objective relating to organic growth in the number of rooms (net of transfers to another banner) was only achieved at 96%, leading to a payment rate of 90% for this criterion.</p>

Compensation paid in or awarded in respect of fiscal 2022	Amounts (or accounting value) submitted to the vote	Description
		<ul style="list-style-type: none"> • €287,500 for qualitative objectives, which, overall, were 115% reached. <p>Consequently, Mr. Sébastien Bazin's annual variable compensation represents 124.7% of the annual reference amount and 164.1% of his fixed compensation for 2022.</p> <p>Payment of this variable compensation for fiscal 2022 is subject to shareholder approval at the 2023 Annual Shareholders' Meeting.</p>
Exceptional bonus	NA	Mr. Sébastien Bazin did not receive an exceptional bonus in fiscal 2022.
Performance conditions	Number of shares = 95,465 (€2,374,978)	<p>In accordance with the 2022 compensation policy for executive officers approved by the Annual Shareholders' Meeting of May 20, 2022, 95,465 performance shares were granted to Mr. Sébastien Bazin, representing 250% of his gross annual fixed compensation (and 0.04% of the Company's share capital at December 31, 2022). The performance conditions attached to the shares are as follows:</p> <ul style="list-style-type: none"> • actual versus budgeted consolidated EBITDA (40% weighting); • actual versus budgeted free cash flow (excluding disposals and acquisitions) after change in operating working capital (20% weighting); • reduction in the carbon footprint (20% weighting); • Accor's Total Shareholder Return (TSR) versus the change of a composite index comprising peer European and international hotel groups (Melia, NH Hoteles, Whitbread, Hilton, Marriott, Hyatt and IHG) (20% weighting). <p>The performance conditions under these plans are measured at the end of the three-year period.</p> <p>The number of shares that vest, provided that Mr. Sébastien Bazin has not left the Group, will be based on the achievement rates for the performance conditions set out above, as validated by the Board of Directors. The achievement rates will be calculated based on the vesting criteria stipulated by the Board of Directors when the plan was set up.</p> <p>Concerning the reduction in the carbon footprint condition, the target objectives enabling 100% vesting of the actions linked to this condition have been set at 21% for Scopes 1 & 2 and 12.5% for Scope 3, corresponding to a trajectory in line with the Group's 2030 goal to reduce its carbon footprint. However, vesting is triggered when the condition is met at a rate of at least 80% (allowing only 50% vesting of the shares linked to this condition to be vested).</p> <p>Concerning the external performance condition (Accor's TSR versus the change of a composite index comprising peer European and international hotel groups (Melia, NH Hoteles, Whitbread, Hilton, Marriott, Hyatt, IHG)), the shares will vest if the achievement rate is at least 90% (allowing only 50% vesting of the shares linked to this condition to be vested). The target for acquiring 100% of the shares linked to this condition has been set at 102.5%.</p> <p>Given the confidential nature of the other quantitative objectives relating to the budget or to the internal ambition (which themselves are not made public), it is not possible to disclose the achievement rates.</p> <p>At the end of the measurement period, an objective under one performance condition that has not been met may be offset by outperformance in relation to the objective for another performance condition. However, the number of shares that vest at the end of the vesting period will not exceed 100% of the number of shares initially granted.</p> <p>Grantees must also continue to be part of the Group in order for the shares to vest. Indeed, Mr. Sébastien Bazin must continue to be an executive officer of the Company in order for the granted shares to vest. For all the initially granted shares to vest, subject to the performance condition achievement rates, Mr. Sébastien Bazin will have to serve as the Company's Chairman and Chief Executive Officer without interruption until April 7, 2025, except in the case of his death, disability or retirement before that date. In the event of termination of the executive officer's term of office before the vesting date, his rights to all of the performance shares initially granted will be immediately forfeited, regardless of the performance condition achievement rates, unless the Board of Directors decides otherwise.</p>

Supplementary pension benefits	€0	<p>Details of the supplementary pension plan are provided in the description of the 2022 executive officer compensation policy approved by the Annual Shareholders' Meeting of May 20, 2022.</p> <p>Mr. Sébastien Bazin benefits from the following supplementary pension benefits: a defined contribution plan or mandatory retirement savings plan, <i>Plan d'Epargne Retraite Obligatoire – PERO</i> (formerly "Article 83" plan) implemented under Articles L. 242-1 and L. 911-1 of the French Social Security Code, and described below, and complemented with a defined benefit plan under Article L. 137 of the French Social Security Code (the "L. 137-11-2" plan), the conditions of which are also described below. Both plans have been re-insured to an accredited organization, to which the relevant contributions are paid. In addition, Mr. Sébastien Bazin also benefits from an "Article 39" defined benefit plan, bearing in mind that this plan has been frozen and no new conditional benefit entitlements have been allocated for periods of employment after December 31, 2019.</p> <p>Concerning the defined contribution pension plan or mandatory retirement savings plan, <i>Plan d'Epargne Retraite Obligatoire – PERO</i> (formerly "Article 83"):</p> <p>Mr. Sébastien Bazin, as executive officer of the Company with over one year of service and a gross annual salary of more than four times the annual ceiling used for calculating French social security contributions (the "PASS"), qualifies to participate in the Company's defined contribution pension plan. He will be entitled to a pension annuity (with the possibility of survivor benefits) determined based on the contributions paid by the Company for each year of his membership of the plan. The annual contribution paid by the Company corresponds to 8% of his annual gross compensation paid in the previous year, capped at eight times the PASS. In accordance with the French Social Security Code, if Mr. Sébastien Bazin leaves the Group before the date of retirement, he will retain the rights accrued under the plan. Contributions paid under the plan on behalf of Mr. Sébastien Bazin amounted to €26,327 in 2022.</p> <p>At December 31, 2022, the estimated pension annuity that Mr. Sébastien Bazin will receive under this plan is €4,104.</p> <p>The Company pays the 20% <i>forfait social</i> levy due on compensation that is exempt from social security contributions (5% of the compensation capped at five times the PASS), which is calculated on the Company's total contribution to the plan, and plan participants pay the <i>Contribution Sociale Généralisée</i> (CSG) and <i>Contribution au Remboursement de la Dette Sociale</i> (CRDS) levies, which are calculated on the basis of the portion of the Company's contribution allocated to them.</p> <p>For the share of the contribution above the above-referenced ceiling, the Company pays the social security contributions (employer contribution) and plan participants pay the CSG, the CRDS and the social security contributions (employee contribution).</p>

Compensation paid in or awarded in respect of fiscal 2022	Amounts (or accounting value) submitted to the vote	Description
Supplementary pension benefits (continued)	€0	<p>Concerning the defined-benefit pension plan (the “L. 137-11-2” plan):</p> <p>Mr. Sébastien Bazin, as executive officer of the Company with over six months of service, present in the Company at the time of the signature of the regulations and receiving an annual reference compensation of more than eight times the PASS, also qualifies to participate in the “L. 137-11-2” pension plan established by the Company. He will be entitled to a pension annuity with the possibility of opting for survivor benefits.</p> <p>He acquires rights gradually, calculated for each year of plan membership. These rights represent between 1.6% and 2.4% of the annual reference compensation, depending on the compensation brackets concerned, i.e.:</p> <ul style="list-style-type: none"> • portion of reference compensation representing between 8 and 12 times the PASS: 1.6%. • portion of reference compensation representing between 12 and 24 times the PASS: 2.4%. • portion of reference compensation representing between 24 and 60 times the PASS: 1.6%. <p>Rights vesting each year are capped at 3% of the annual reference compensation in question. These rights represent the pension annuity he will ultimately receive.</p> <p>Based on recommendations put forward by the Appointments, Compensation and CSR Committee, the Board of Directors decided to make payment of the annuity payable under the “L. 137-11-2” supplementary defined benefit plan, for fiscal 2022, subject to the following two performance conditions:</p> <ul style="list-style-type: none"> • actual versus budgeted consolidated EBITDA (50% weighting), • actual versus budgeted free cash flow (excluding disposals and acquisitions) after change in operating working capital (50% weighting). <p>Benefit entitlements vest in full if the performance conditions are at least 75% met (below 75%, the vested entitlement is calculated on a straight-line basis). The achievement rate of these conditions, observed and confirmed by the Board of Directors at its meeting on February 23, 2022 enabled the vesting of 100% of rights for the year.</p> <p>The rights acquired by Mr. Sébastien Bazin, for 2022, correspond to a pension annuity of €37,525 i.e. 1.55% of his 2022 annual reference compensation for 2022.</p> <p>The final pension annuity acquired under this plan amounts to €62,006.</p> <p>Concerning the defined-benefit pension plan (“Article 39”): Mr. Sébastien Bazin, as executive officer of the Company, remains potentially eligible for benefits under this plan, which is described below. In accordance with French Order No. 2019-697 dated July 3, 2019, concerning professional defined benefit plans, this plan has been frozen and no new conditional benefit entitlements have been allocated for periods of employment after December 31, 2019.</p>

Compensation paid in or awarded in respect of fiscal 2022	Amounts (or accounting value) submitted to the vote	Description
		<p>To claim his benefits every year, Mr. Sébastien Bazin had to have an annual reference salary of more than five times the PASS and to have complied with these conditions for more than six months during the fiscal year concerned.</p> <p>He will therefore be entitled to a pension annuity (with the possibility of survivor benefits), provided he remains with the Group until he retires. If he does not meet these requirements, he will not be entitled to any payments under the plan. However, under the plan's provisions, members may retain:</p> <ul style="list-style-type: none"> • potential benefits accrued under the plan in the event of (i) removal from office after the age of 55, (ii) forced early retirement, with benefits payable for the period from when the member leaves the Company through to the date on which they become entitled to the basic state pension, or (iii) category 2 or 3 disability as defined under the French Social Security Code, with benefits payable for the period before they become entitled to supplementary pension benefits; • surviving spouse rights in the event of death in the period before they become entitled to supplementary pension benefits. <p>The pension annuity paid under the plan will be reduced by the amount of the annuity financed by contributions paid prior to fiscal 2020 into the Article 83 defined contribution plan described above.</p> <p>His benefit entitlement was built up gradually until December 31, 2019, and was calculated each year for which he was a plan member based on his annual reference compensation (annual reference compensation corresponds to total gross fixed and variable compensation plus any exceptional bonus paid during the reference fiscal year). Each year of plan membership represents between 1% and 3% of the annual reference compensation, depending on the compensation brackets concerned, i.e.:</p> <ul style="list-style-type: none"> • portion of reference compensation representing between 4 and 8 times the PASS: 1%; • portion of reference compensation representing between 8 and 12 times the PASS: 2%; • portion of reference compensation representing between 12 and 24 times the PASS: 3%; • portion of reference compensation representing between 24 and 60 times the PASS: 2%. <p>The annuity payable under the supplementary defined benefit plan is subject to the following two performance conditions:</p> <ul style="list-style-type: none"> • actual versus budgeted consolidated EBITDA (50% weighting); • actual versus budgeted free cash flow (excluding disposals and acquisitions) after change in operating working capital (50% weighting). <p>Each year, the performance condition achievement rates are validated by the Board of Directors.</p> <p>The benefit entitlement for any given year of plan membership would potentially correspond to the aggregate of the amounts accrued for each of the above compensation brackets, provided that the related performance conditions are met. The amount of the final pension annuity equals the sum of the entitlements calculated for each year until December 31, 2019.</p> <p>Two caps are applied to the final amount of the pension annuity:</p> <ul style="list-style-type: none"> • the amount of the gross annuity may not exceed 30% of the member's last annual reference compensation; • given that Sébastien Bazin's last reference compensation was more than 12 times the PASS, the overall replacement rate represented by pension benefits payable under government-sponsored plans and Accor supplementary pension plans will be capped at 35% of the average of his best three years' reference compensation in the 10 years prior to retirement. <p>Consequently, Sébastien Bazin's estimated potential benefits under this plan at December 31, 2022 amount to €246,126.</p> <p>To date, the social security contributions and tax payments that affect the plan are as follows: the Company has irreversibly elected to pay the social security tax contribution at the rate of 32% on annuities paid to plan participants who retired on or after January 1, 2013, and 16% on annuities paid to plan participants who retired before that date. For their part, plan participants are liable for the CSG and CRDS levies, a French national health insurance contribution and the <i>Contribution Additionnelle de Solidarité pour l'Autonomie</i> (CASA) social levy, calculated in each case on the amount of their annuities in the same way as for other income replacements. In the specific case of annuities received under defined benefit pension plans, a social <i>Contribution Sociale</i> levy is also due by the retiree at a rate that varies depending on the amount of the annuity and the retirement date.</p>

It is noted that the issuance of these new securities could be decided in remuneration of shares tendered to any public offer including a share swap component initiated by the Company in France or any other foreign-law transaction having the same effect, on shares of a company listed on one of the regulated markets covered by Article L. 22-10-54 of the French Commercial Code;

Statutory Auditors' report on the consolidated financial statements

For the year ended December 31, 2022

This is a free translation into English of the Statutory Auditors' report issued in French and is provided solely for the convenience of English speaking readers. This report includes information specifically required by European regulations or French law, such as information about the appointment of Statutory Auditors. This report should be read in conjunction with, and construed in accordance with, French law and professional auditing standards applicable in France.

To the Shareholders,

Opinion

In compliance with the engagement entrusted to us by your Annual Shareholders' Meeting, we have audited the accompanying consolidated financial statements of Accor for the year ended December 31, 2022.

In our opinion, the consolidated financial statements give a true and fair view of the assets and liabilities and of the financial position of the Group at December 31, 2022 and of the results of its operations for the year then ended in accordance with International Financial Reporting Standards as adopted by the European Union.

The audit opinion expressed above is consistent with our report to the Audit, Compliance & Risks Committee.

Basis for opinion

Audit framework

We conducted our audit in accordance with professional standards applicable in France. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Our responsibilities under these standards are further described in the "Responsibilities of the Statutory Auditors relating to the audit of the consolidated financial statements" section of our report.

Independence

We conducted our audit engagement in compliance with the independence rules provided for in the French Commercial Code (*Code de commerce*) and the French Code of Ethics (*Code de déontologie*) for Statutory Auditors for the period from January 1, 2022 to the date of our report, and, in particular, we did not provide any non-audit services prohibited by Article 5(1) of Regulation (EU) No. 537/2014.

Justification of assessments – Key audit matters

In accordance with the requirements of Articles L.823-9 and R.823-7 of the French Commercial Code relating to the justification of our assessments, we inform you of the key audit matters relating to the risks of material misstatement that, in our professional judgment, were the most significant in our audit of the consolidated financial statements, as well as how we addressed those risks.

These matters were addressed as part of our audit of the consolidated financial statements as a whole, and therefore contributed to the opinion we formed as expressed above. We do not provide a separate opinion on specific items of the consolidated financial statements.

Measurement of intangible assets

Risks identified

At December 31, 2022, the carrying amount of intangible assets stood at €5,410 million, approximately 46% of total assets. These non-current assets include goodwill (€2,282 million), brands (€2,005 million) and contracts (€905 million), mainly recognized on external growth transactions, as well as other intangible assets (€217 million). A €10 million net reversal of impairment losses has been recognized for these intangible assets as at December 31, 2022.

As described in Note 8.3 to the consolidated financial statements, "Impairment tests", these assets are tested for impairment when there is any indication that they may be impaired. These tests are performed at least once a year for goodwill and intangible assets for which the useful life cannot be determined. An impairment loss is recognized when the recoverable value is lower than the net carrying amount. The recoverable amount of intangible assets is estimated on the basis of the value in use, the calculation of which is generally based on discounted cash flow projections taking into account the Covid-19 health crisis and the observed conditions of recovery. Management is required to exercise judgment and make significant estimates to determine the recoverable amount and its sensitivity to key data and assumptions.

In accordance with IAS 36 – *Impairment of Assets*, Management assessed whether there were any indicators of impairment at December 31, 2022 or, otherwise, whether the impairment has decreased or no longer exists. Any reversal is based on new estimates of the recoverable amount of intangible assets (other than goodwill). The recoverable amount of the assets is determined based on the value in use, which is calculated by discounting the projected future cash flows based on the Company's business plan.

Consequently, the Group carried out impairment tests on goodwill, brands with indefinite useful lives and other intangible assets in the event of an impairment indicator being identified at December 31, 2022.

Given the significant value of the intangible assets on the balance sheet, the sensitivity of the impairment tests to certain key data and assumptions, and Management's judgments in an evolving context, we considered the measurement of the recoverable amount of intangible assets to be a key audit matter.

How our audit addressed this risk

Our audit procedures mainly consisted in:

- familiarizing ourselves with Management's process for measuring intangible assets and assessing the principles and methods used to determine the recoverable amounts of cash generating units (CGUs) or groups of CGUs to which the intangible assets relate;
- reviewing the groups of CGUs at the level of which goodwill is monitored by Management, and assessing their consistency with the Group's internal organization, the level at which investments are monitored and the internal reporting system;
- substantiating the existence of indicators of impairment, or indicators that such impairment has decreased or no longer exists, identified by Management at December 31, 2022;
- assessing, with the support of our valuation experts, the relevance of the measurement models used, the long-term growth rates and the discount rates applied, in light of market practices, and verifying their arithmetical accuracy and their consistency with the main source data;
- assessing the consistency of cash flow projections with Management's business plans, taking into account observed recovery trends following the health crisis, market outlook and climate change-related risks. Where appropriate, we also conducted sensitivity analyses on the impairment tests;
- assessing the appropriateness of the information disclosed in Note 8.3 to the consolidated financial statements, "Impairment tests".

Specific verifications

As required by legal and regulatory provisions and in accordance with professional standards applicable in France, we have also performed the specific verifications on the information presented in the Board of Directors' management report.

We have no matters to report as to its fair presentation and its consistency with the consolidated financial statements.

We attest that the management report includes the consolidated non-financial performance statement required under Article L.225-102-1 of the French Commercial Code. However, in accordance with Article L.823-10 of the French Commercial Code, we have not verified the fair presentation and consistency with the consolidated financial statements of the information given in that statement, which will be the subject of a report by an independent third party.

Other verifications and information pursuant to legal and regulatory requirements

Presentation of the consolidated financial statements to be included in the annual financial report

In accordance with professional standards applicable to the Statutory Auditors' procedures for annual and consolidated financial statements presented according to the European single electronic reporting format, we have verified that the presentation of the consolidated financial statements to be included in the annual financial report referred to in paragraph I of Article L.451-1-2 of the French Monetary and Financial Code (*Code monétaire et financier*) and prepared under the Chairman and Chief Executive Officer's responsibility, complies with this format, as defined by European Delegated Regulation No. 2019/815 of December 17, 2018. As it relates to the consolidated financial statements, our work included verifying that the markups in the financial statements comply with the format defined by the aforementioned Regulation.

On the basis of our work, we conclude that the presentation of the consolidated financial statements to be included in the annual financial report complies, in all material respects, with the European single electronic reporting format.

Due to the technical limitations inherent in the macro-tagging of the consolidated financial statements in accordance with the European single electronic reporting format, the content of certain tags in the notes to the financial statements may not be rendered identically to the consolidated financial statements attached to this report.

In addition, it is not our responsibility to ensure that the consolidated financial statements to be included by the Company in the annual financial report filed with the AMF correspond to those on which we carried out our work.

Appointment of the Statutory Auditors

We were appointed Statutory Auditors of Accor by the Annual Shareholders' Meetings held on June 16, 1995 for ERNST & YOUNG et Autres and on April 30, 2019 for PricewaterhouseCoopers Audit.

At December 31, 2022, ERNST & YOUNG et Autres and PricewaterhouseCoopers Audit were in the twenty-eighth and the fourth consecutive year of their engagement, respectively.

Prior to ERNST & YOUNG et Autres, Barbier Frinault et Associés (formerly known as Barbier Frinault et Autres) was the Statutory Auditor from 1970.

Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for preparing consolidated financial statements giving a true and fair view in accordance with International Financial Reporting Standards as adopted by the European Union and for implementing the internal control procedures it deems necessary for the preparation of consolidated financial statements that are free of material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern, and using the going concern basis of accounting, unless it expects to liquidate the Company or to cease operations.

The Audit, Compliance & Risks Committee is responsible for monitoring the financial reporting process and the effectiveness of internal control and risk management systems, as well as, where applicable, any internal audit systems, relating to accounting and financial reporting procedures.

The consolidated financial statements were approved by the Board of Directors.

Responsibilities of the Statutory Auditors relating to the audit of the consolidated financial statements

Objective and audit approach

Our role is to issue a report on the consolidated financial statements. Our objective is to obtain reasonable assurance about whether the consolidated financial statements as a whole are free of material misstatement. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with professional standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions taken by users on the basis of these consolidated financial statements.

As specified in Article L.82310-1 of the French Commercial Code, our audit does not include assurance on the viability or quality of the Company's Management.-

As part of an audit conducted in accordance with professional standards applicable in France, the Statutory Auditors exercise professional judgment throughout the audit. They also:

- identify and assess the risks of material misstatement in the consolidated financial statements, whether due to fraud or error, design and perform audit procedures in response to those risks, and obtain audit evidence considered to be sufficient and appropriate to provide a basis for their opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of the internal control procedures relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates made by Management and the related disclosures in the notes to the consolidated financial statements;
- assess the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. This assessment is based on the audit evidence obtained up to the date of the audit report. However, future events or conditions may cause the Company to cease to continue as a going concern. If the Statutory Auditors conclude that a material uncertainty exists, they are required to draw attention in the audit report to the related disclosures in the consolidated financial statements or, if such disclosures are not provided or are inadequate, to issue a qualified opinion or a disclaimer of opinion;
- evaluate the overall presentation of the consolidated financial statements and assess whether these statements represent the underlying transactions and events in a manner that achieves fair presentation;
- obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. The Statutory Auditors are responsible for the management, supervision and performance of the audit of the consolidated financial statements and for the opinion expressed thereon.

Report to the Audit, Compliance & Risks Committee

We submit a report to the Audit, Compliance & Risks Committee which includes, in particular, a description of the scope of the audit and the audit program implemented, as well as the results of our audit. We also report any significant deficiencies in internal control that we have identified regarding the accounting and financial reporting procedures.

Our report to the Audit, Compliance & Risks Committee includes the risks of material misstatement that, in our professional judgment, were the most significant in the audit of the consolidated financial statements and which constitute the key audit matters that we are required to describe in this report.

We also provide the Audit, Compliance & Risks Committee with the declaration provided for in Article 6 of Regulation (EU) No. 537/2014, confirming our independence within the meaning of the rules applicable in France, as defined in particular in Articles L.822-10 to L.822-14 of the French Commercial Code and in the French Code of Ethics for Statutory Auditors. Where appropriate, we discuss any risks to our independence and the related safeguard measures with the Audit, Compliance & Risks Committee.

Statutory Auditors' report on the financial statements

(For the year ended December 31, 2022)

This is a free translation into English of the Statutory Auditors' report issued in French and is provided solely for the convenience of English speaking readers. This report includes information specifically required by European regulations or French law, such as information about the appointment of Statutory Auditors. This report should be read in conjunction with, and construed in accordance with, French law and professional auditing standards applicable in France.

Accor

82, rue Henri Farman

92130 Issy-les-Moulineaux

France

To the Shareholders,

Opinion

In compliance with the engagement entrusted to us by your Annual Shareholders' Meeting, we have audited the accompanying financial statements of Accor for the year ended December 31, 2022.

In our opinion, the financial statements give a true and fair view of the assets and liabilities and of the financial position of the Company at December 31, 2022 and of the results of its operations for the year then ended in accordance with French accounting principles.

The audit opinion expressed above is consistent with our report to the Audit, Compliance & Risks Committee.

Basis for opinion

Audit framework

We conducted our audit in accordance with professional standards applicable in France. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Our responsibilities under these standards are further described in the "Responsibilities of the Statutory Auditors relating to the audit of the financial statements" section of our report.

Independence

We conducted our audit engagement in compliance with the independence rules provided for in the French Commercial Code (Code de commerce) and the French Code of Ethics (Code de déontologie) for Statutory Auditors for the period from January 1, 2022 to the date of our report, and, in particular, we did not provide any non-audit services prohibited by Article 5(1) of Regulation (EU) No. 537/2014.

Justification of assessments – Key audit matters

In accordance with the requirements of Articles L.823-9 and R.823-7 of the French Commercial Code relating to the justification of our assessments, we inform you of the key audit matters relating to the risks of material misstatement that, in our professional judgment, were the most significant in our audit of the financial statements, as well as how we addressed those risks.

These matters were addressed as part of our audit of the financial statements as a whole, and therefore contributed to the opinion we formed as expressed above. We do not provide a separate opinion on specific items of the financial statements.

Measurement of equity investments

Description of risk

Equity investments are recorded in the balance sheet at their acquisition cost, excluding acquisition expenses. At December 31, 2022, the carrying amount of equity investments stood at €5,964 million, approximately 54% of total assets.

As stated in Note 1 "Accounting policies", section c) "Non-current financial assets" to the financial statements, impairment is recognized when the value in use is lower than the carrying amount. The value in use is determined on the basis of the percentage interest in the subsidiary represented by such investments and, as the case may be i) the values derived from recent transactions, ii) historical information used to assess the initial value of the equity investments, iii) current information such as the profitability of the Company or the actual value of the underlying assets, iv) forward-looking information comprising profitability or performance prospects and economic trends, and v) the average EBITDA over the previous two years times a multiplier.

The choice of the method for determining value in use requires Management's significant judgment. In view of the significant amount in the balance sheet represented by the equity investments and the impact of the choice of valuation method for determining the value in use, we considered the measurement of equity investments to be a key audit matter.

How our audit addressed this risk

Our audit procedures mainly consisted in:

- assessing the measurement methods used by Management;
- reconciling the equity values used with the source data from the accounts of the subsidiaries concerned, and examining any adjustments made, as well as the documentation underlying these adjustments;
- examining whether the value in use of the equity investments and any impairment was correctly determined on the basis of the methods adopted by Management;
- assessing the appropriateness of the information disclosed provided in Note 1.c) "Non-current financial assets", Note 6 "Changes in equity investments and other long-term securities in 2022" and Note 7 "Statement of provisions and impairment as of December 31, 2022" to the financial statements.

This partnership will also enable the Accor Group to accelerate the deployment of its coworking development strategy in its hotels and dedicated spaces.

At the General Meeting of Accor,

In our capacity as Statutory Auditors of your company and in compliance with Article L. 22-10-62 of the French Commercial Code in the event of a capital reduction by cancellation of purchased shares, we have prepared this report to inform you of our assessment of the reasons for and conditions of the proposed capital reduction.

Your Board of Directors recommends that you delegate to it, for a period of twenty-four months from the date of this meeting, all powers to cancel, up to a limit of 10% of its share capital, per twenty-four month period, the shares purchased pursuant to an authorization for your company to purchase its own shares within the framework of the provisions of the aforementioned article.

We conducted the procedures that we deemed necessary in accordance with the professional guidance of the French Institute of Statutory Auditors ("CNCC") with respect to this mission. These procedures consisted in examining whether the reasons for and conditions of the proposed capital reduction, which is not likely to affect the equality of shareholders, are in order.

We have no observations to make on the reasons for and conditions of the proposed capital reduction.

Subject to a subsequent review of the terms and conditions of the issue of securities that would be decided, we have no observations to make as to the terms and conditions for setting the issue price of the equity securities to be issued, as provided in the report of the Board of Directors under the nineteenth, twentieth and twenty-first resolutions.

Furthermore, as this report does not specify the methods for determining the issue price of the equity securities to be issued in the context of the implementation of the eighteenth and twenty-second resolutions, we are unable to express an opinion on the method for calculating this issue price.

As the final conditions under which the issues will be carried out have not yet been determined, we do not express an opinion on these issues - and, consequently, on the proposal to cancel your pre-emptive subscription rights made in the nineteenth, twentieth and twenty-first resolutions.

In accordance with article R. 225-116 of the French Commercial Code, we will issue an additional report, if necessary, when your Board of Directors uses these authorizations in the event of the issue of securities that are equity securities giving access to other equity securities or giving access to rights to debt securities, in the event of the issue of securities giving access to equity securities to be issued, and in the event of the issue of shares with cancellation of the pre-emptive subscription rights for existing shareholders.
